Your application to renew your asbestos registration number 998 is complete. Your renewal registration commences August 17, 2023 and continues through August 17, 2024.

Be very careful to send in all status changes on a timely basis, including name, entity, workers compensation insurance, CSLB #, ownership, and contact information. Your registration is contingent upon the accuracy of this information. Be aware that your registration and DOSH number are tied to a specific CSLB # and name. In particular, if your CSLB # changes, you will have to reapply as an initial applicant. To provide for business continuity, you must notify the Division as soon as you are aware of such changes. Use the attached form for all status changes.

As always, one condition of continued registration is provision of timely responses to requests for information with regard to your company's compliance history.

This registration is subject to annual renewal by the Division. A renewal application notice will be sent two months in advance of the registration date. However, it is your responsibility that the application and registration fee is received by the Division 30 days before the expiration date [8 CCR 341.7(c)], even if you do not receive the notice.

Sincerely,

Linda Ikami
